

"Beginners Music That Works!"

www.howardpub.com

Don't stay up all night rewriting parts!!!

If you have one of our Howard Publications pieces and you need a part rewritten, just email me at billbeachy.com and we will rewrite the part and send it back to you on email so you get it quickly. Also, if you need a part for an instrument and it is not in the set, we will write one for you asap and send it back to you on email.

We do not just sell you the music and forget you. When you purchase our music, our support comes with it!

You do have permission to rewrite parts and write for instruments not in the set. We would like you to send us a copy and permission to include it in the set of parts. We want each set of parts to "work!"
